

ETP General Purpose Cutting Oil

This aerosol is formulated for every type of metal cutting, including stainless steel, brass, copper and more. Also safe for use with aluminum. A great pick for reduced cutting time, improved cut finish, and exceptional performance in all your metal cutting operations.

- Combined lubrication and cooling in one product for efficient metal cutting
- Reduces tool burning, heat distortion, and dissipates heat for maximum performance
- Forms a protective barrier against rust and corrosion, resulting in smoother and cleaner cuts
- 15.3 oz. can size; 11 oz. net wt.
