

## MAX™ – Professional Cleaning Tool

Equipped with a patented spring technology which increases the torque and intensifies the cleaning power. Thanks to the spring technology the cleaning time is reduced and efficiency is greatly increased. Newly designed ergonomic handle and trigger provides users more control and comfort. Built-in air regulator allowing for precise control of the air pressure. Swivel air inlet added for more flexibility, allowing sprayer to be set flat onto surfaces while being plugged into air. The newly designed air inlet will not get in the way. Anti-slip mat on jar bottom allows sprayer to stand flat, even when connected to an air hose. This results in minimized spills and falls. Comes with an LED tactical light to illuminate dark areas without having to incorporate bulky lights.

- New patented spring rotate set for more cleaning power
- Newly designed ergonomic handle and trigger
- Built-in air regulator
- Swivel air inlet
- Anti-slip mat on jar bottom
- LED tactical light

## HVLP Spray Gun – Professional Cleaning Tool

High-volume, low-pressure (HVLP) technology to evenly disperse the flow of any liquid with less risk of overspray. Designed for the professional detailer looking to clean and prep any vehicle, without having to worry about cords. This tool is designed to handle viscous products like water-based dressings and makes applying dressings easy no matter the surface. Great for tires, engine bays, and interiors. Do detail work in less time with the three selectable spray patterns: vertical, round, and horizontal.

# TORNADOR® – Professional Cleaning Tools

## Velocity-Vac Dry – Professional Cleaning Tool

Take your vacuuming to a whole new level. The patented Tornador® ball-bearing rotation quickly lifts dirt and grime from carpet fibers that other vacuums leave behind. The unique shape and technology of the cone also adds additional suction power to your vacuum. Easily attaches to an air source and a wet/dry vacuum. This new technology combination will streamline your automotive detailing and reconditioning challenges. Ideal for use in quick wash and vac detailing situations in car washes, body shops, new car get-ready and other quick detailing jobs. Works amazing on pet hair removal. The tornado-action in the cone twists and pulls the hair quickly out of textile fibers. Quick and economical solution to combat everyday interior problems
